

Fernando Rojas
Software Developer

“ Truth can only be found in one place: the code ”
Robert C. Martin

Full-Stack React developer with over a year of experience crafting user interfaces using the Next.js framework. I've collaborated with various companies, delivering innovative and efficient solutions. My focus lies in building robust, scalable web applications that ensure an optimal user experience and meet industry standards.

RECENT PROJECTS

Eva Group – Funeral Insurance Comparator

High-quality, fully responsive website enabling comparisons of various funeral insurance options to choose the best fit for your needs.

Also features Eva Insurance's blog with informative articles explaining funeral insurance and its coverage options.

www.segurodedecesos.com

Eva Group – Madrid Insurance Comparator

Madrid Insurance Comparator is part of the world's largest ecosystem of comparators, managed by Eva Group. It provides a wide range of solutions including telecommunications, fiber optics, energy, insurance, healthcare services, remittances, mortgages, travel, and more. This platform allows you to compare different options and find the best fit for your needs.

PROFESSIONAL EXPERIENCE

JUNIOR FRONTEND DEVELOPER
Eva Grupo
Jan. 2024 – Jun. 2024

- Collaborated in implementing code for various comparator designs, involving the creation of tailored developments for markets in Madrid, Barcelona, Miami, Arab countries, and more. Ensured high performance and user satisfaction throughout the projects.
- Collaborated on the internationalization of products into multiple languages, including adapting products to Catalan, Basque, English, and Arabic, thereby enhancing accessibility and usability for diverse user bases.
- Enhanced and expanded functionalities: I debugged code errors and implemented new features, contributing to the continuous improvement of applications while ensuring their robustness and scalability.

PRE-PROFESSIONAL SOFTWARE DEVELOPMENT INTERNSHIP
Deep Skill
Oct 10 2023 – Nov 30 2023

- Participated in implementing the backend for a web platform (Deep Pharma), including authentication and authorization. This allows pharmacies in Peru to monitor the purchase and sale of all products they offer more efficiently.
- Contributed to implementing the user interface for the page (Deep Pharma) using the Next.js framework.

FREELANCE TECHNICAL WRITER AT 4GEEKS
4Geeks
Apr 04 2023 – Jan 30 2024

- At 4Geeks, I wrote articles on a wide range of topics related to software development. My role involved leveraging various technologies and programming languages such as JavaScript, HTML, CSS, React, Python, and Pandas to provide clear and insightful explanations.

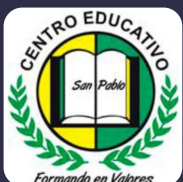

ACADEMIC EXPERIENCE

FULL STACK DEVELOPER
Soy Henry | February 2022 – August 2022

FRONTEND DEVELOPMENT WITH REACT.JS
Platzi | 2022 – Never Stop Learning

HIGH SCHOOL
San Pablo Educational Center | December 2021
